This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # IMPORTANT NOTICE

These Tables of Houses form an important link in our Simplified System of Astrology. By our original method they are easily usable for both North and South latitude, even by the veriest tyro in Astrology.

To erect a figure for South latitude simply add twelve hours to the Sidereal Time at Birth (see Simplified Scientific Astrology, page 32), and *enter the signs and degrees in the houses designated at the bottom of each Table.*

To demonstrate our method we will partly cast a figure for a birth, June 15th, 1918, 11:30 a. m., Melbourne, Australia, lat. 38 S., long. 145 E.

| | H. | M. | S. |
|---|---|---|---|
| S. T. at Greenwich on noon *previous* to birth (June 14th) | 5 | 27 | 53 |
| Less correction 10 sec. for each 15 deg. East long. of birthplace | | 1 | 37 |
| | 5 | 26 | 16 |
| Interval, June 14th to birth | 23 | 30 | |
| Plus correction of 10 sec. for each hour of above Interval | | 3 | 55 |
| | 29 | 0 | 11 |
| Subtract the circle of 24 hours | 24 | | |
| Sidereal Time at Birth | 5 | 0 | 11 |
| Add 12 hours for South latitude | 12 | | |
| *South* Sidereal Time | 17 | 0 | 11 |

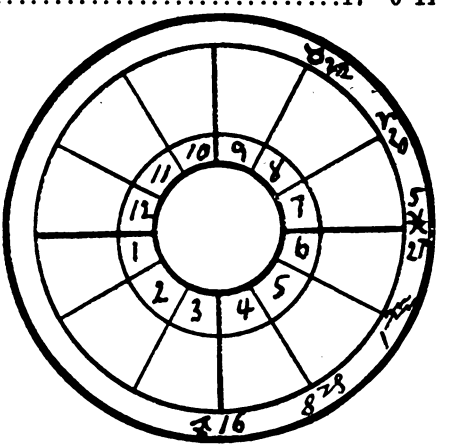
| Houses | 4 | 5 | 6 | 7 | 8 | 9 |

Latitude 38° S.



With this *South* Sidereal Time we turn to our Table of Houses. From the small portion of the proper Table here printed for the convenience of students we see that the nearest Sidereal time is 16 h. 59 m. 10 s. In line with that we find the signs and degrees for our cusps—

♐ 16°, ♑ 8°, ♒ 1°, ♓ 5° 27′, ♈ 20°, ♉ 22°.

These we place in the 4th, 5th, 6th, 7th, 8th and 9th houses as directed at the bottom of our Table, and shown in the figure above.

When that is done it only remains to fill in the opposite degrees and signs in the opposite houses as usual to complete the figures.

As latitude does not enter into the calculation of the planets places, they are calculated and placed in the same manner as if the figure were for North Latitude.
